

**Policy 507.01: Student Health and Immunization Certificates**

**Status: ADOPTED**

**Original Adopted Date:** 03/01/2013 | **Last Revised Date:** 07/21/2025 | **Last Reviewed Date:** 07/21/2025

Students enrolling for the first time in the school district will submit a certificate of immunization against diphtheria, pertussis, tetanus, poliomyelitis, rubeola, rubella, and other immunizations required by law. The student may be admitted conditionally to the attendance center if the student has not yet completed the immunization process but is in the process of doing so. Failure to meet the immunization requirement will be grounds for suspension, expulsion or denial of admission.

Upon recommendation of the Iowa Department of Education and Iowa Department of Public Health, students entering the district for the first time may be required to pass a TB test prior to admission. The district may conduct TB tests of current students.

In addition, documentation of all other screenings, such as lead and dental, will need to be provided as required by law.

Exemptions from the immunization requirement in this policy will be allowed only for medical or religious reasons recognized under the law. The student must provide a valid Iowa State Department of Health Certificate of Immunization Exemption to be exempt from this policy. The district will include information related to immunization requirements as well as exemption requirements in the district's registration documentation as well as on the district's website.
