I would like to extend my sincere gratitude to Steven Hopper, Sean Shatava, and Paige Elsbernd for their dedication and hard work in planning, executing, and navigating the complex submission process for the SLFRF Safety Grant Funds. Through their efforts, our District secured \$335,171.25 in federal funding, which was used to enhance safety and security through the installation of security cameras and servers, fencing, and bollard barriers. Each of these individuals devoted countless hours to preparing the required documentation, significantly contributing to the safety and well-being of our entire District community.
