

District Career and Academic Plan: 2024-2025

District and School: Dallas Center-Grimes Community School District

State Approved Career Information System (CIS): Xello

Date District Career and Academic Plan was last revised: March 2024

District Career and Academic Plan Section Outline:

Initial Section: [Annual School Board Review](#)

Section 1: [District Team Members](#)

Section 2: [District Statement Summary](#)

Section 3: [Course Planning](#)

Section 4: [Work-Based Learning](#)

Section 5: Essential Components of ICAP

[Essential Component #1](#)

[Essential Component #2](#)

[Essential Component #3](#)

[Essential Component #4](#)

[Essential Component #5](#)

Section 6: [FAFSA Advisement](#)

Section 7: [District Integration](#)

The District Career and Academic Plan (DCAP) is a roadmap for district implementation of career development and student's ICAP. Each bolded & boxed section should be completed and updated by the DCAP team each year as part of the revision process. Data and prior RPP evaluation should be considered in the yearly updates as well as the foundations of the ICAP process; scaffolded, inclusive, embedded and reflective.

Points to consider when completing the summaries for each section connected to foundations of ICAP: Inclusive, Scaffolded, Reflective and Integrated.

- Identify how internal and external team members collaborate to holistically implement self-understanding at each grade level.
- What data is utilized for each section? As part of the revision process, data should be a focus for yearly consideration and improvement. At minimum, data should be referenced and used for both the board review section and the district summary portion.
- Who are the team members assigned in grades 8-12 and what are their assigned roles in the implementation of the District Plan?
- How will completion of each essential component contribute to the successful completion of high school, including student identified and ICAP activity supported postsecondary education and career options and goals?
- How is reflection incorporated in each of the 5 Essential Components?
- What are your student outcomes? How does the team know that all students are included and connected to their ICAP?
- Add hyperlinks to relevant documents when applicable (meeting minutes, communication materials, lesson plans, syllabus, district websites, etc.)

Topics to discuss with the board: A link to board minutes/presentation can be included to support this section.

Due to changes in district reporting requirements, evidence must include board minutes indicating the DCAP was shared.

- Review of prior 2024 Implementation and Goals set, attained, revised
- Data to support goal attainment
 - Prior year RPP evaluation/rubric score and movement to update and improve based upon feedback
 - DCAP team reflection/insight
 - Consider the Foundations of the ICAP process: Inclusive, scaffolded, embedded and reflective
- Present current/upcoming 2025-2026 Goals;
 - Data reviewed to implement change
 - Focus for DCAP team
 - Connection to district integration (Portrait of a Graduate, Comprehensive School Counseling Plan, Future Ready Initiatives, etc)
- Present how stakeholder participation benefits students, community, parents, and recruit District Team membership
- Student ICAP utilization including CIS and ICAP outcome

Artifacts for Annual Review with Board of Directors (**links to the April board meeting agenda and presentation will be added by April by Dr. Carenza)

****Note:** *Our DCAP Presentation to the Dallas Center-Grimes Community School District Board of Directors is scheduled for the April 28, 2025 board meeting. This is an annual meeting (same month every school year) where we present updates on our District Career and Academic Plan.*

Artifact 1: Board Agenda for Monday, April 28, 2025** (will upload when we publish our board agenda)

Artifact 2: Board Meeting Minutes for Monday, April 28, 2025** (will upload when we have published meeting minutes)

Artifact 3: [DCAP Presentation for the DC-G Board of Directors](#)** (this is a “Work In Progress” as we work to complete the presentation)

Section 1: District Team

The district team plays a crucial role in implementing ICAP, bringing together required members including school administrator(s), counselor(s), teachers (including career and technical education instructors), and the person responsible for work-based learning. It also includes representatives from various backgrounds such as those working with special populations, postsecondary institutions, workforce/industry stakeholders, parents, and students.

In addition to drafting the DCAP, the team strategically aligns ICAP with district educational goals and ensures compliance with established standards. The [evaluation rubric](#) assesses their active engagement and collaboration in achieving ICAP objectives, emphasizing their role in promoting meaningful educational outcomes and comprehensive student support initiatives. Team members collaborate to establish, implement, review, and coordinate ICAP activities, regularly consulting with employers, state and local workforce agencies, higher education institutions, and postsecondary training programs to ensure alignment with regional and state workforce needs. It is essential that the team's work goes beyond membership lists; their contributions should be clearly evident in the connection to district goals, initiatives, and the effective implementation of ICAP for all students.

*** Please note, a school district with more than one attendance site for grades 8 through 12 should create one, district-wide team with designees as needed.*

District Team Members

List the current DCAP team members. Required team members are marked with an *.

	Names of Stakeholders	School/Organization/ Company	DCAP Role
Secondary principal/administrator(s)*:	Joan Cundiff Austin Roy	Oak View DC-G High School	Member, District Level DCAP Team Member, District Level DCAP Team
Secondary career counselor(s)*:	Emily Waugh Sarah Rose Nathan Gross	Oak View Oak View DCG High School	Member, District Level DCAP Team Member, District Level DCAP Team Member, District Level DCAP Team
Secondary CTE teachers*:	Beth Hansen Eric Klein Sheri Fuller Alison Thompson Emilie Kristoff Ashley Perrizo	Oak View Oak View Oak View Oak View Oak View/High School DCG High School	CTE Teacher Representative

Work-based Learning Coordinator*:	Scott Heitland Josh Saba	DCG High School DCG High School	Work-Based Learning Teachers
Secondary instructional support staff/ paraprofessional:			

Postsecondary CTE faculty/Concurrent enrollment partners, administration, etc:	Aly Cappert	DMAcc	Community College Representative
Middle school representation (school counselor, administrator, etc.)			
Members of local workforce development boards:	Grimes Chamber and Economic Development (Halsey Scales)	Grimes Chamber and Economic Development	
Member of regional economic development organization:	Grimes Chamber and Economic Development (Halsey Scales)	Grimes Chamber and Economic Development	
Local business and industry representatives:	Grimes Chamber and Economic Development (Halsey Scales)	Grimes Chamber and Economic Development	
Parents and students:	2024-2025 SIAC Membership List	DCG Schools (District Wide)	
Representatives of special populations: (ex: gender, race, ethnicity, migrant status, disability, economically disadvantaged, nontraditional, single parent, pregnant women, out-of-work-individuals, English-language learners (EL), homeless, foster care, active duty military, corrections).	Roxanne Cumings,	DCG Director of Student Services	
Representatives of regional or local agencies serving out-of-school youth, homeless children and youth and at-risk youth:	Kathryn Hopper Julie Kopecky, DMAcc Youth Consortium Instructor Greg Carenza, Associate Superintendent	DCG At Risk Coord. and Alt. Ed. Prog. Coord. DMAcc DCG CSD	
Other stakeholders desired:			

Section 2: District Plan Statement Summary:

Section 2: District Plan Statement Summary:

Consider and include in your summary:

- Identified district goals connected to data, prior evaluation or other methods of implementation
- Data points and data sources that were used in the formation of the district goals for student ICAP completion
- Points of collaboration with internal and external stakeholders
- Methods of communication and connection with students, their families and their community
- Connection to prior year rubric score and steps taken to evaluate prior DCAP and improve with DCAP team reflection
- Foundations of the DCAP Process: Inclusive, Scaffolded, Reflective and Integrated
- Future ready goals, district Portrait of a Graduate (PoG), State of Iowa Career and College Readiness definition can also be included in this section.

Statement Summary can be included below or attached/linked from another document source.

The Dallas Center-Grimes Community School District believes strongly in the power of career and academic planning as a means for helping students to plan for, and achieve, their goals and dreams. The goal of our work is to ensure high levels of collaboration between all stakeholders (i.e., students, families, staff, community members, higher education, etc...) focused on helping students to identify their future through career paths and academic planning.

This work, and our passion for it, lies within our 2024-2025 school year Career and Academic Plan. Our district plan is a road map which includes the development of a flexible career focus and an education plan that is clearly-defined, rigorous, and relevant to ensure a successful and efficient transition to post secondary education and/or the world of work. This roadmap includes graduation requirements, approved coursework for the student's educational and career goals, and developmentally appropriate, work based learning experiences. By using a continual improvement process and approach, we are able to utilize various data sources, feedback loops, and suggestions to guide self-reflection and updates to our Career and Academic Plan. We analyzed feedback from the 23-24 DCAP Rubric, updated definitions, parent survey/feedback results, Iowa School Performance Data, enrollment and course registration data, and internal sources of feedback loops to establish a new focused vision to improve how we ensure all students complete an ICAP. It is through this process that we believe we will continue to improve the support for our students. Below are the goals and a rationale for why that goal was chosen.

- **By Fall of 2028, create an annual 8-12 Parent Night/Webinar Series to address DCAP and ICAP principles with parents starting with Class of 2029.** During the 23-24 school year, we held our first Future Freshman Parent Night for 8th-grade families. This was a collaborative event between our High School and Oak View (7-8 Building) administrative and counseling staff. The intent of the event was to introduce the Four Year Planning Process, Graduation Requirements, and board overviews of Essential Components of the DCAP as well as FAFSA and WBL. The DCAP team also [collected data](#) from parents about their current awareness of DCAP principles while also gauging their priorities to guide how we should align our priorities while we work to improve our DCAP. That feedback helped guide our following goals. We held the event again in the 24-25 school year with increased attendance and increased approval feedback for the event. With this event established, we want to capitalize and create one new event per year until we have a night for all grades 8-12. The Class of 2029 will be the first class to have an event each of their five years. The intent of this is to scaffold the information that is shared with families so they can support their student's ICAP progress throughout their time. We also hope to collect data and feedback from families as well as build connections with them as potential community and business partners as well.
- **By Fall of 2025, create a plan for Counselor to Push into Eng I/Health/Advisories in 9th and 10th grades year to set the foundation for Junior/Senior Meetings, and Essential Component work.** When we analyzed the feedback from the 23-24 report, it became clear that our DCAP is far from inclusive for all students and scaffolded throughout the intended five years of our program. At the 8th grade level, many activities are inclusive through a required Future Ready class and activities with counselors. In the 11th and 12th grades, Essential Components are met through individual Junior and Senior Meetings between students and counselors in addition to some guaranteed and elective opportunities. However, we identified gaps in integrated and intentionally designed activities for 9th and 10th grade students. To address this, we will work with our curriculum department and counseling team to push into required courses for 9th and 10th grade students such as English I, Health, and Advisories to bolster and build on our Essential Components to ensure we are inclusive, scaffolded, reflective, and integrated throughout all grades. We will also leverage the Iowa School Counseling Framework to ensure the work of our counselors is reflective of state and district expectations.
- **Equip Advisors to do follow ups from push ins and roles they play in the DCAP process. Spring 2026** To ensure our DCAP is scaffolded and integrated at its fullest, we want to lean into the relationships and access our advisors have and increase their role in the DCAP. Students meet weekly with our students and many of our Xello activities take place at this level. We also share information about college and career opportunities during this time. However, currently, much of the current role of the advisor is around information sharing. Though teaching and informing our teachers about the DCAP and ICAP principles, our hope is they can serve as a consistent source of reflection, and analysis, and weave the Essential Components together into a cohesive system rather than siloes of activities.
- **Create a timeline of guaranteed and optional experiences in each grade level to address EC, FASFA, and WBL. Spring 2027** As we have matured in our DCAP journey, we want to shift from capturing the great things we are already doing and getting credit for it and relying on individuals to creating a storyline of opportunities that build towards specific outcomes for students. Before we know what we need to build, we must understand what we have, identify gaps in the timeline, and fill in with experiences that are designed with the purpose of meeting DCAP principles. This will also help us keep data on how many students are accessing what opportunities and experiences.

- **Work with the curriculum department and PLCs to identify the Required Content and Elective areas' role in supporting Essential Components/FAFSA/ and WBL.** Once we know what we have and what we need to build, our next step is to work thoughtfully to integrate guaranteed experiences into existing courses, programs, or events while also developing new courses programs or events to fill in the gaps. None of that is possible without collaborating with the curriculum department and PLCs that will support and carry out these DCPA principles. This also applied to our Alternative Education program and other specialized programs within our school. This has to be all of our work and a vision of ownership and understanding of roles is essential for this work to be integrated, inclusive, and scaffolded.
- **Use DCAP/ICAP principles to influence the ongoing Strategic Planning Process.** Our district is currently in a transitional phase in terms of having an agreed-upon set of district initiatives, vision, or clearly outlined student outcomes. Our district is currently working through a Strategic Planning Process to identify these very items. The group has completed the "Theory of Action" where they focus on consistent values held by staff, students, and community members for what a learning and working environment should look and feel like. The next step is to create an "Operational Report Card" which entails what will happen to accomplish the Theory of Action. We have members of our DCAP Team on the Strategic Planning Process to ensure the work is being seen through a DCAP lens so once completed, our Strategic Plan for the district will be able to support and align to DCAP and ICAP.

Section 3: Four-Year plan including yearly review and revision grades 8-12:

Prepare the student for successful completion of the core curriculum developed by the state board of education by the time the student graduates from high school.

- 4-year plan is created in 8th grade
- Parent/guardian signs acknowledgment of review
- Plan is reviewed each year by student/family
- Student and family are advised on progress towards graduation
- Connection to the ICAP essential components/student reflection
- **Concurrent enrollment opportunities are included and shared with students/parent/guardians***
- Course selection and concurrent enrollment is tied to student's postsecondary goals/planning
- Industry recognized credentials, career academy, apprenticeship, pre-apprenticeship, internships are identified and incorporated into planning

8th Grade:

Creation of 4-year plan of coursework that meets graduation requirements & supports student's current postsecondary plan

8th grade	Activity/Experience to Support students 4-year plan portion of ICAP:	Timeline & embedded:	Staff Members included:	Resources used including CIS:
	● Student outcomes are included ● Connection to essential components ● Parent/guardian involvement/communication ● Concurrent enrollment connection	When and where each year is this completed?	● Who/what group will coordinate this event/activity? ● How is a team/system approach utilized?	Description should include how each resource is used and connected to the activity/experience
4-year plan is completed	● Xello Lesson/Directions ● 4 year Plan Video (HS Counselors created to share with 8th grade students) ● 4 Year Plan Reflection (within Xello) ● Utilizing ParentSquare to seek Parent/Guardian	January 2025	Oak View Counselors, Oak View Advisors, HS counselors	8th Grade Registration/Four-Year Plan Timeline 4 Year Plan Lesson Directions 4 Year Plan Videos - 9th , 10th , 11th , 12th

	approval of their student's plan • 8th Grade Grade Plan and Parent Signature • 8th Grade Parent Night (feedback was asked from all families who participated)	February 2025 January 2025		4 Year Plan Reflection Questions (students complete in Xello) 8th Grade Parent Night Presentation
Advisement of coursework supporting graduation	8th Grade Registration Timeline	January 2025	Oak View Counselors, Oak View Advisors, HS counselors	8th Grade Registration/Four-Year Plan Timeline video – to register for 9th grade
Advisement of coursework to support postsecondary goals	Throughout 8th-12th grade, students revisit and revise their four-year plan in Xello. Students are asked to complete a yearly reflection within Xello once revisions have been made as well.	January 2025	Oak View Counselors, HS Counselors	Xello yearly reflection questions
Parent or Guardian signs acknowledgement of plan	Parents view their student's plan in Xello, then approve of their student's plan via ParentSquare OR signature on a physical copy of the 4YP.	February & March 2025	Oak View Counselors & Oak View Advisors	Daily ParentSquare Posts regarding each step/year of the four-year plan: ParentSquare Post - Parent Approval Parents may request a PDF copy of the 4YP from Oak View Counselors as well.

Grades 9-12: Student reviews plan each year for graduation progress and alignment to postsecondary goal(s); parent/guardian are included and advised in the yearly review.

- Plan is reviewed each year by student and family
- Student and family are advised on progress towards graduation
- Connection to the ICAP essential components/student reflection
- **Concurrent enrollment opportunities are addressed and shared with students/parent/guardians***
- Course selection and concurrent enrollment is tied to a student's postsecondary goals/planning
- Industry recognized credentials, career academy, apprenticeship, pre-apprenticeship, internships are identified and incorporated into planning and yearly revisions.

***Districts are highly encouraged to link a copy of their course handbook or other document(s) that outline their SYP/concurrent enrollment policies to their DCAP template. This can be done within the course planning section above or with a direct link included below this statement. For additional information on SYP, the [Iowa Department of Education's SYP website](#) provides a guide as well as additional resources to support districts.**

Section 4: Work-Based Learning Incorporated into the student's ICAP

"Identify the coursework and work-based-learning needed in grades nine through twelve to support the student's postsecondary education and career options"

For additional detailed information on WBL including implementation, activity clarification, integration strategies and ICAP connection, please refer to the [Iowa Department of Education's Work-Based Learning Guide](#).

Work- Based Learning: Defined as, "sustained project-based learning in partnership with an employer, simulated work experiences aligned with industry-recognized credentials (IRC), high-quality pre-apprenticeships aligned to an apprenticeship, student learner programs, internships and apprenticeships."

Grade:	Activity/Experience to Support career-based learning each year; Identification of each of the 3 elements: • Include how all students are advised of opportunities and have access • Connection to essential components & course planning. • Student outcomes are detailed • Connected IRCs (IRC information) • Employability skill highlights	Academic Preparation	Connection to Industry/Career Development	Academic Follow-up
8th Grade				
9th	<u>Activity guaranteed for all students outside of a Course:</u> <u>Activity in Required Course:</u> <u>Activity in Elective Course:</u> <u>Activity optional for all students outside of a course:</u> <u>Activity Specific to Participation in a Program:</u> School-to-Work Experience (Special Education)	Included in Document	Included in Document	Included in Document

* The elements of academic preparation, partnership between education and industry and academic follow-up must be incorporated in the experience listed above. If one of these elements is not incorporated into the career experience, It would be considered Essential Component #3 and should be included with that section.

Section 5: Essential Components 1-5

For each Essential Component, the following should be included in the description:

- An overview of the activity/experience
- **Reflection must be included for each activity/experience:**
 - provide evidence of reflection and how the reflection information is used (i.e: by the student, connected to the other components and/or by the DCAP team/internally to further engage and enhance ICAP implementation.
- A connection to course planning and review is present and detailed
- An overview of the intended student outcome is included for this component
- FAFSA/financial aid connection

Essential Component #1: Self-Understanding (assessments, inventories, reflections)

Students shall engage in developmentally appropriate inventories and assessments that promote self-understanding, the connection to work, and engage in **meaningful reflective activities about the results.**

Self-understanding can include but is not limited to:

- Interest inventories
- Work values assessments
- Learning styles inventories
- Abilities strengths and skills assessments
- Career cluster inventories and career assessments
- Noncognitive skills assessments

Grade:	Description of Activity/Experience to Support students Essential Component #1 (additional details for elements to include are found in overview of Section 5)	Timeline & embedded: When and where each year is this completed?	Staff Members included: • Who/what group will coordinate this event/activity? • How is a team/system approach utilized?	Resources used including CIS: Description should include how each resource is used and connected to the activity/experience.

Essential Components #2 Career Information - Understanding the World of Work (state and national wage, earning, employment outlook)

Students shall research careers based on self-understanding results and engage in **meaningful reflection about the findings**.

Career information shall include, but is not limited to:

- State and national wage earnings
- Employment outlook data for a given occupation
- Education and training requirements
- Job descriptions including such information as:
 - Essential duties
 - Aptitudes
 - Work conditions
 - Physical demands

Grade:	Activity/Experience to Support students Essential Component #2: (additional details for elements to include are found in overview of Section 5)	Timeline & embedded: When and where each year is this completed? Essential Component #3: Career Exploration Experiences

Students shall engage in activities that reveal connections among school-based instruction, career clusters, and the world of work and **engage in meaningful reflection**.

If all 3 elements of WBL are present (Academic preparation, connection to industry & academic follow-up) the event listed below is a Career-Based Experience or WBL experience and should be included in the WBL section of the DCAP.

Career exploration experiences may be face-to-face or virtual and may include, but are not limited to

- Job/worksite tours
- Career days or career fairs
- Career connected short term authentic projects
- Lunch and learn activities

Essential Component #4: Postsecondary Exploration

Students shall engage in activities to explore relevant postsecondary education and training options related to career interests and **engage in meaningful reflection on the exploration experience including a connection to the student's current postsecondary thoughts/goals.**

Postsecondary exploration activities may be face-to-face or virtual and may include, but are not limited to:

- Postsecondary options research and connection
- Site or campus visits
- Career, employment, or college fairs in which the focus is exploration of postsecondary options
- Visits with recruiters and representatives of postsecondary education and training options.
- Includes all areas of postsecondary exploration

Section 6: FAFSA Advisement:

Prior to graduation, all students must be advised on how to successfully complete the Free Application For Federal Student Aid (FAFSA)

For additional information on the addition of FAFSA to ICAP, please review the [FAFSA addition to ICAP guidance](#). The [FAFSA ICAP Toolkit](#) also provides clarification, examples, scaffolding and resources.

Considerations for this section:

- Financial aid & FAFSA vocabulary
- Return on investment (ROI)
- Process for completion & reasons for FAFSA completion regardless of plans or income
- Connections to financial aid including scholarships & all connections to state and federal aid (Last Dollar Scholarship, Iowa specific scholarships, Iowa Financial aid form, merit scholarships, etc.)
- FAFSA verification and other FAFSA complications
- State-wide resources for student and family support of FAFSA completion (Iowa College Aid, ICAN, Latino Access Network, etc)
- Parent/guardian & family engagement
- Activities and exploration experiences connected to Essential Component 4 and Essential Component 5

Grade:	Activity/Experience to support FAFSA Advisement	Timeline & embedded: When and where each year is this completed?	Staff member(s) included in implementation with involvement/role;	Resources used including CIS:
	• Provide an overview of the activity/experience • Connection is present to connect with Essential Components including #4 & #5 • Parent/guardian communication is provided to support all students • An overview of the intended student outcome is included		• Who/what group will coordinate this event/activity? • How is a team/system approach utilized?	Description should include how each resource is used and connected to the activity/experience

DMACC representative available weekly to help with FAFSA, financial aid, and scholarship questions	All year	Aly Cappart		Meeting with DMACC rep
DCG Foundation Scholarships information shared with students and families	March	Counselors and Educational Foundation Scholarship Committee		Presentation to seniors and emails to students and families

Important FAFSA Communication Tools

[Better FAFSA Social Media Toolkit](#) (use this guide to support monthly communications with families about the FAFSA)

[National College Attainment Network](#) (provides additional social media tips for communicating around the FAFSA)

Section 7: District plan integration

As outlined in [281.49 \(279\)](#), the DCAP shall include, “Integration of the career plan within connected district initiatives and other facets of the school district’s comprehensive school counseling program.”

Ensuring connection and integration with the comprehensive school counseling plan as specified in [281.12.3](#). Districts are encouraged to consult the updated [Iowa School Counseling Framework](#) for further details. The school counseling plan should be linked or included with the annual DCAP submission to the RPP.

For this section, districts should highlight the following connections with the school counseling plan* and DCAP:

- Curriculum delivery related to career and academic domains
- Individual student planning: ongoing, developmentally appropriate and aligned to support the student ICAP
- Responsive services as connected within an [MTSS framework](#) to support career and academic planning and success
 - Integration of MTSS and school counseling is included in the [School Counseling Framework](#)
- System support: collaboration between the DCAP team and school counselor(s), professional development and overall program management.

*Please be mindful to not include any identifying student information within the inclusion of links to this template and through the school counseling plan.

Additional considerations for this section:

- How will the district implement current best practices for working with students on their career plans in grades 8-12, K-12 and how does the district team stay current with such best practices?
- How ICAP is included and coordinated into both classroom and other aspects of the school district’s educational initiatives.
- What is the current comprehensive plan for career implementation and connection to District Portrait of a Learner and/or the State Of Iowa’s definition of [College and Career Readiness](#)?
- How does the district team research and keep current on local, regional, state and national occupational outlook data?
- Upon review of the prior year DCAP, what revisions have been made to update to the DCAP to best implement each student’s ICAP?
- Connection to district initiatives and student outcomes

District plan integration clarification can be included below or attached/linked from another document source.

In response to the feedback and rubric results from the 23-24 DCAP Report, the DCAP Team soul searched individually and collectively for the most appropriate means to improve and integrate DCAP into the fabric of what we do at DCG. Our biggest shift was understanding that instead of continually adding to improve, we must first consider what must be removed because it is not serving a purpose or meeting a need before we can add and improve. This led us down a road of asking ourselves what should the vision for DCAP be at DCG.

After analyzing feedback as well as improvement tools provided by the state such as the DCAP Team self-evaluation tool and the Iowa School Counseling Framework, we found the answer lies in working to integrate the vision of DCAP as defined in the rubric into what we do at DCG, not force what DCG does into the rubric of DCAP. After attending Heartland AEA DCAP workshops our team is taking a much longer and intentional focus on integration that encompasses both short and long-term goals that will sustain and drive improvement based on what is best for kids and their individual and collective outcomes. During the 24-25 school year it does not feel like we made actionable improvements toward our integration and professional development around DCAP. However, more than ever, we have a clear picture and solid foundation for which improvement will now commence. While highlighting the work we do that does meet DCAP principles, we will work to stay grounded within the definitions and purposes of DCAP, the Iowa School Counselor Framework, and DCG's Strategic Plan to create an inclusive, scaffolded, reflective, and integrated plan with outcomes that lead all students towards informed and prosperous futures.

To invest in this outcome, the district is creating a TLC-level CTE curriculum facilitator who will research the latest and best practices surrounding career data, as well as support district administrators, counselors, staff, and students within the realm of ICAP, DCAP, and college and career readiness. Our district follows a seven-year curriculum review cycle for all subject areas. The CTE curriculum facilitator will support each cycle, ensuring that DCAP principles are integrated into the scope and sequence of every curriculum.
