

Building: DCG Middle School	April Board Report
	Building Goals: By May 2026, each grade (5-6) will show an increase in the percent proficient on the ELA and math subtests as measured by the Iowa Statewide Assessment of Student Progress (ISASP) test. By May 2026, DCG Middle School will score “effective” in each element of Capacity 6: Building-Wide Behavior Expectations as measured by the MTSS-B Capacity Matrix team reflection sheet. 100% of middle school students will receive a positive communication home during both semesters of the school year. Over the course of the 2025-2026 school year, each PLC will keep agendas and minutes for their meetings showing integration of the Stronge Framework.

Collaboration: 6th Grade Band & Choir students traveled to DCG High School earlier this month for a special Band and Choir Exchange Experience. During this trip, students had the opportunity to perform alongside high school students, giving them a firsthand look at what their future in music making can become. Performing with these talented musicians, including All-State performers, made for an incredibly inspiring and educational experience. We are grateful for the collaboration between our middle school and high school teams that made this opportunity possible for our students!

Innovative: DCG Middle School teachers took part in professional development this month around Question 3 of the PLC Process: How do we respond when students need more support? Staff members heard from our instructional coaches and English Learners teacher to learn new and innovative strategies that they can implement in their classrooms. Our team has embraced creativity and innovation this year, and are constantly looking for ways to meet the diverse needs of our learners.

Supportive: Our Special Education teachers recently had the opportunity to connect with colleagues from both our elementary schools and Oak View to start talking about transitions for students with Individualized Education Plans. This meeting will help our teachers to make sure that we are prepared to support each and every one of our students and make sure they are connected to our learning community.

Inclusive: Our next building wide challenge, Mustang Madness, is well underway! During Mustang Madness, students have been working together as a class to show The Mustang Way of being Respectful, Responsible, Safe, and Kind. Classes are competing against each other in their pod, and the classes with the most positive accommodations at the end of April will receive a class party. Three weeks into the challenge we already have over 5,700 accommodations for our students. We are so proud of their hard work and their support in making DCG Middle School an amazing place to learn and grow!

Passionate: DCG Middle School hosted the annual Battle of the Books at the end of March. 64 teams from all around Iowa were at our building for this competition, 10 of whom were from our school. These 39 students made the commitment to come in during recess and lunch multiple times to prepare for this competition, and all did a great job! Special thanks to staff members Tom Clark, Amanda Christiansen, Sara Cockrum, and Trish Owens for all their hard work preparing for this event!
