Subject: RFP Response: 11.6" Touchscreen Clamshell Chromebooks & Licensing - Sterling

To: [bids@dcschools.com](mailto: bids@dcschools.com) <[bids@dcschools.com](mailto: bids@dcschools.com)>

Good Morning,

Please see attached for Sterling's response to your Chromebook RFP. We have provided two solutions for you.

Please note:

The Lenovo Chromebooks that are quoted in the response attached are currently in stock and ready to ship. Due to daily changes in inventory, we advise placing your order as soon as possible.

The Dell Chromebooks that are also quoted in the response attached currently have an ETA of September 11th. This may vary depending on when the order is placed.

Mon, May 11, 2:20 PM (2 days ago)

Based on the current stock position and projected lead times, it appears that the Acer option may not be a viable path forward for this cycle.

The limited availability and extended ETA introduce a level of risk that would make it difficult to confidently meet your July delivery requirement.

With that in mind, I wanted to revisit the ASUS options we included in the original bid. We provided two configurations—one Intel-based and one Media Tek-based—both of which were priced more competitively and may offer greater flexibility from an availability and fulfillment standpoint.

Are you evaluating one of the ASUS options as an alternative?
