

Building: DCG Middle School	April Board Report
	Building Goals: By May 2026, each grade (5-6) will show an increase in the percent proficient on the ELA and math subtests as measured by the Iowa Statewide Assessment of Student Progress (ISASP) test. By May 2026, DCG Middle School will score “effective” in each element of Capacity 6: Building-Wide Behavior Expectations as measured by the MTSS-B Capacity Matrix team reflection sheet. 100% of middle school students will receive a positive communication home during both semesters of the school year. Over the course of the 2025-2026 school year, each PLC will keep agendas and minutes for their meetings showing integration of the Stronge Framework.

Collaboration: 6th grade students are traveling to Oak View this week as part of their preparation for 7th grade. This collaboration between the Middle School and Oak View will allow students to get familiar with the building, their schedules, and new staff members before they start in a new building in August. Although we will miss our amazing group of 6th grade students, we are excited for them to start the next step in their journey!

Innovative: As we are setting building goals for next year, we are trying new methods to incorporate feedback from staff, students, and families in our goal-setting process. Through various professional development sessions, surveys, and data reviews, our Building Leadership Team is working to set goals that are both aligned to district goals and authentic to work we are doing in our building every day. We believe that this new approach will help us set high quality goals that will guide us into the 2026-2027 school year.

Supportive: Our incoming 5th graders who have individualized education plans were able to come visit the middle school a second time earlier this month. They got a tour of the building led by current students, and received letters from current 5th graders giving them some advice for their transition to middle school. This was a great opportunity for students to get an extra level of support before next year.

Inclusive: Our final building wide challenge, Mustang Madness, was a huge success! During Mustang Madness, students worked together as a class to show The Mustang Way of being Respectful, Responsible, Safe, and Kind. We had a total of 7,500 commendations for our students during this challenge. We are so proud of their hard work and their support in making DCG Middle School an amazing place to learn and grow!

Passionate: DCG Middle School hosted our Spring Band & Choir concerts earlier this month. It was an amazing experience to see 460 students get a chance to perform for their families and show the growth that they have made this year. Special thanks to Joy Augustine and Suzi Royer for all their hard work in preparing students for these concerts!
